

Model 282

C-Hook

C-Hooks are designed to handle coils in the eye horizontal position and are available in a wide range of capacities, coil sizes and design styles. C-Hooks used in severe-duty environments or for extra heavy loads can be custom-designed to fit the application.

Product Features:

- High-tensile strength alloy steel plate minimizes physical size
- Counter balanced to hang level when empty
- Inside radius on hooks avoid coil edge contact
- Curved coil support on lower arm is standard
- Guide handles for ease of coil positioning
- Handles a wide range of coil widths

Product Options:

- Replaceable urethane facing available for additional coil protection
- Recessed counterweight for close stacking
- Long carrying arm style for multiple slit coils
- High temperature environment capability
- Storage stand
