

Model MHL

Concrete Manhole Housing Lifter

Safe, efficient, and easy to use. Fully adjustable legs help you balance the load quickly.

Product Features:

- Handles concrete pipe efficiently without damage to concrete seat
- Legs can be quickly positioned to safely balance the load
- 2- or 3-leg models available
- Handles 4" to 6" concrete wall thickness
- Requires constant tension to maintain positive load contact
- Complies with ASME standards
